2015 CRIME IN UTAH REPORT INTRODUCTION

This *2015 Crime in Utah* report is published by the Utah Department of Public Safety's Bureau of Criminal Identification (BCI) to give governmental leaders and citizens a better understanding of criminal activity in the state. The report is a compilation of crime data reported by local law enforcement agencies throughout the state. The data is reported under the guidelines of the Uniform Crime Reporting (UCR) program, a national program which uses generic crime definitions to ensure that crime data is comparable across political boundaries. BCI forwards data collected from Utah law enforcement agencies to the FBI, who in turn combines it with data from other states to compile and publish an annual report called *Crime in the United States*.

UCR data is collected in two formats: "summary based reporting" which has undergone only minor changes since the 1930s and "incident based reporting" (IBR) which uses computer technology to collect more detailed information. 76 agencies in Utah submitted IBR data in 2015, accounting for 52.41% of the agencies and covering 77.70% of Utah's population. 69 agencies in Utah (or 47.59%) submitted summary based data, or did not submit any data.

In the summary based system, crimes are divided into two categories: *Part I Crimes*, which include criminal homicide (murder, non-negligent manslaughter, and manslaughter by negligence), forcible rape (which is defined by the UCR program as the carnal knowledge of a female forcibly and against her will), robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson; and *Part II Crimes*, which include all other non-traffic crimes. The Part I crimes, except manslaughter by negligence, make up the *"crime index"* used by the FBI to track our nation's crime situation. Therefore, these crimes are often referred to as "index crimes." The number of known offenses and arrests are reported on Part I Crimes, while only arrests are reported on Part II Crimes. If multiple Part I offenses are committed in the same criminal episode, only the most serious offense is reported.

The Part I Crimes are also categorized as *violent crimes* (murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault) and *property crimes* (burglary, larceny-theft, motor vehicle theft, and arson) for analysis purposes.

The statistics presented in this report are only as accurate as the data provided by the local law enforcement agencies.

Several law enforcement agencies in Utah do not submit their crime statistics to BCI, but forward them directly to the FBI. Such entities include military installations, national parks, and tribal lands. To view the crime statistics for such agencies, please refer to the FBI's *Crime in the United States* publication.

The FBI has made the determination to transition from Summary reporting to NIBRS reporting by January 2021.

The Department of Public Safety would like to acknowledge and recognize the following law enforcement agencies for their dedication to the UCR/IBR programs. Without their efforts to provide BCI with their crime data, this report would not be possible.

Crime Factors

In order to produce a meaningful statistical profile of crime within the State of Utah, each law enforcement agency is asked to participate in the Uniform Crime Reporting (UCR) program, reporting data on crimes that became known to law enforcement within their jurisdiction. Utah uses the same offense classifications used in the national UCR program so that the resulting crime statistics are comparable to those compiled across the nation.

In the UCR program, crimes are divided into two categories: Part I Crimes (or "Index Crimes"), which include homicide and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson; and Part II crimes, which include all other non-traffic offenses. If more than one Part I offense is committed in the same criminal episode, only the most serious offense is reported. Only arrest data is collected on the Part II crimes.

Crime rates in this publication are based on the stable population of the municipality. Although transient populations definitely impact the volume and nature of crime, it is impractical to base crime rate calculations on these fluctuating populations. Therefore, a municipality with high transient populations may have a higher crime rate than another municipality of similar size. *Characteristics of the community influence criminal activity and should be considered when attempting to interpret crime statistics presented herein.* Below are some factors which will affect the type and volume of crime that occurs and is subsequently reported in a given location.

- Density and size of the population of the community and of the surrounding area.
- Relative stability of the population, including seasonal, commuter, and other transient populations.
- Composition of the population, particularly with reference to age, sex, and socioeconomic status.
- Economic status, including job availability and mores of the population.
- Climate, including seasonal weather conditions.
- Cultural conditions such as educational levels, recreational opportunities, and religious characteristics.
- Effective strength of law enforcement, including cooperation of neighboring agencies, reservations and federal law enforcement agencies.
- Administrative and investigative emphasis and efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).
- Attitudes of the public toward law enforcement and their crime reporting practices.

This report reflects crime in Utah as far as it is completely and accurately reported by local law enforcement agencies to the Utah Bureau of Criminal Identification.

Index Crimes

Data for "Index Crimes by Agency" (formerly the "Local Agency Overview") is compiled from information that local agencies submit to BCI. Refer to the Glossary section for definitions of the offenses listed below. Offenses are defined according to the FBI Uniform Crime Reporting definitions, which may vary from state or local crime statutes.

Law enforcement agencies (state, county and city) report the number of offenses that become known to them in the following crime categories:

1. Criminal Homicide
    a. Murder and Non-Negligent Manslaughter
    b. Manslaughter by Negligence (not an index crime)

2. Forcible Rape
    a. Rape by Force
    b. Attempts to Commit Forcible Rape

3. Robbery
    a. Firearm
    b. Knife or Cutting Instrument
    c. Other Dangerous Weapon
    d. Strong-Arm (Hands, Fists, Feet, etc.)

4. Assault
    a. Firearm
    b. Knife or Cutting Instrument
    c. Other Dangerous Weapon
    d. Hands, Fists, Feet, etc, Aggravated
    e. Simple Assault (not an index crime)

5. Burglary
    a. Forcible Entry
    b. Unlawful Entry - No Force
    c. Attempted Forcible Entry

6. Larceny-Theft

7. Motor Vehicle Theft
    a. Autos
    b. Trucks and Buses
    c. Other Vehicles

8. Arson

Summary Based Reporting and Incident Based Reporting

Law enforcement agencies submit their statistical information in one of two different formats: the older "summary based reporting" system and "incident based reporting" which is also referred to as "IBR" or "NIBRS."

Generally, offenses of law occur singly as opposed to many being committed simultaneously. In these single-offense situations it must be decided whether the crime was one of the "Index Crimes", and if so, it is scored accordingly (homicide, rape, robbery, etc.). However, if several offenses are committed at the same time by a person or a group of persons, the crimes are reported using a hierarchy approach in classifying and scoring. (e.g., during a convenience store robbery the store clerk is killed, a customer assaulted, merchandise stolen, and a customer's car stolen.) Agencies that submit their data using the summary based method must report this crime under the guidelines of the FBI's Hierarchy rule, in which only the most serious offense is counted, and the others are ignored for statistical reporting purposes. In the example above, only the murder of the clerk would be counted in the agency's UCR statistics, and for statistical reporting purposes it would be as if the other crimes did not occur.

Agencies utilizing the incident based method of reporting do not use the Hierarchy Rule, so all criminal events in an incident are counted statistically. In the example above, the homicide, the assault, the theft, and the motor vehicle theft are all counted.

The data shown in the following "Index Crimes by Agency" (or "Local Agency Overview") reports the statistics for all agencies *as if they were all reporting using the summary based format*. The data from the incident based agencies is converted into summary based data that the agency would have reported, had it been a summary based agency. The uniformity in reporting allows for more direct comparisons between agencies.

When viewing the data for the incident based agencies, starting on page 65, keep in mind that direct comparisons between the "Crime by Agency" and the "Incident Based Data" cannot be made because of the different nature of their methodologies. *If an agency submits data using the incident based format, the data seen for that agency in the "incident based" section is more accurate than the data seen for that same agency in the "Crime by Agency."*

Scoring of Offenses

Using the summary based reporting format, only those offenses *that became known to law enforcement* for Part I crimes and simple assault are counted under the Uniform Crime Reporting program. The method of scoring offenses varies with the type of crime committed.

For murder and non-negligent manslaughter, negligent manslaughter, forcible rape, aggravated assault and simple assault, one offense is scored for each victim, regardless of the number of offenders involved. For example, two offenders could be involved in the murder of one victim and in this case only one murder would be scored. If one offender murdered two victims, two homicides would be scored.

For robbery and larceny, one offense is scored for each distinct operation which is separate in time and place. The number of victims in any one operation does not determine the number of offenses. For example, if seven patrons in a bar are robbed, only one robbery is scored.

For burglary, one offense is scored for each structure which is illegally entered.

For motor vehicle theft, one offense is scored for each vehicle stolen.

In the summary based reporting system, arrest data is counted for 29 “Part II” crimes; including, but not limited to drug offenses, DUI, forgery, counterfeiting, fraud, etc. The summary based system only counts the number of persons arrested. The Hierarchy Rule is also applied to scoring the arrests. If one person is arrested for homicide, rape, motor vehicle theft, possession of narcotics and weapon law violations, only the arrest for the homicide rule is counted, as that is the most serious crime.

2015 Summary Analysis

The population figures used in this report are based on data received from the U.S. Census Bureau. The U.S. Census Bureau's web site for population totals and the methodology used is located here: http://www.census.gov/popest/data/index.html

- In 2015, a total of **94,947** index crimes were committed, which indicates an **8.37% increase in the overall number of index crimes** from 2014.
- The number of **violent crimes increased 13.74%** from the previous year; with an increase in the number of rapes (14.79%), robberies (4.09%), aggravated assaults (17.33%) and a decrease in homicides (3.57%).
- **Property crime increased 7.99%.** All property crimes increased this year, burglary (11.93%), larceny (5.89%), motor vehicle theft (22.79%), and arson (6.73%).
- Firearms were used in 56.90% of the homicides reported.
- 13.41% of the homicides reported involved family relationships, 79.27% did not, and in 7.32% of the homicides the victim/offender relationship was unknown.
- The value of reported property stolen in 2015 amounted to $104,721,085**.** Of that amount, $33,800,919 was recovered, indicating a 32.28% recovery rate.
- **Residential burglaries accounted for approximately 70.26% of all burglaries**. Of all residential burglaries, approximately 63.23% were known to be committed during daytime hours (6:00 am to 6:00 pm), 26.01% were known to be committed during nighttime hours (6:00 pm to 6:00 am), and the time of day could not be established for approximately 10.76% of reported residential burglaries.
- Reported hate crimes decreased from 62 in 2014 to 59 in 2015, a 4.84% decrease.
- There were 117,130 arrests reported in 2015. This is up 0.07% from 2014.

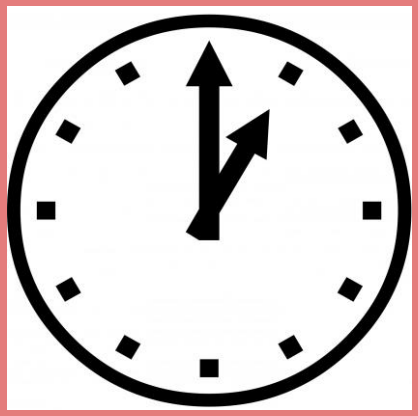
Crime Clock

On the average, one *INDEX CRIME* is reported every *6.00* minutes in the state of Utah.

One *Homicide* every 6.76 days

One *Rape* every 7.68 hours

One Robbery every 6.62 hours



One Aggravated Assault every 2.20 hours

One Burglary every 43.91 minutes

One Larceny every 7.68 minutes

One Motor Vehicle Theft every 1.12 hours

One Arson every 1.53 days

The Crime Clock should be viewed with care. Being an aggregate representation of summary based UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency in occurrence of the Index Offenses. This mode of display should not be taken to imply regularity in the commission of the Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

SUMMARY BASED REPORTING

The information in this section is presented in the summary based format. Information from incident based agencies is converted into what that agency would have submitted had it been a summary based agency. This allows for a more direct comparison between agencies.

Crime Rate per 1,000 shows how many crimes occurred per every 1,000 residents of the jurisdiction. However, this does not always reflect an accurate picture of crime in the jurisdiction; it also does not necessarily mean that the residents of that jurisdiction are more or less likely to commit crime than residents of other jurisdictions.

Colleges and universities with their own police departments submit information about crimes that occur on campus property. However, these agencies have a "zero" population, as the census bureau considers the students to be residents of the city or unincorporated area in which they live. Crimes reported by campus police departments are not always committed by students of the school. Many events that occur on a college campus can bring non-students onto the school's property. The makeup of the area immediately surrounding the college must also be taken into consideration.

Several agencies submitting data to Utah's UCR database include agencies that cover more than one city or county. Such agencies include Parks and Recreation, Utah Transit Authority, Wildlife Resources, drug task forces, and other such agencies.

Throughout the course of a calendar year existing law enforcement agencies could disband and new agencies could be formed. Agencies do not always submit a full 12 months of data, while some agencies submit a combination of both summary based data and incident based reporting.

The Arrest Data by Agency and the Adult and Juvenile Arrest totals are also presented in the summary based format so that more direct comparisons can be made between agencies.

Index Crimes by Agency

Data for the Index Crimes by Agency is compiled from information that local agencies submit to BCI. Refer to the Glossary section for definitions of the offenses listed below. Offenses are defined according to the FBI Uniform Crime Reporting definitions, which may vary from the state crime statutes. Data seen here is reported as if each agency reported data using the "summary based" format.

Arrest Data by Agency

Arrest data counts the number of persons arrested, not the number of charges that person is arrested for; nor does it count the number of offenses cleared by the arrest. If a person is arrested for more than one offense the reporting agency counts only the arrest for the most serious charge. An adult is a person 18 years of age or older; a juvenile is a person aged 17 or younger. Law enforcement agencies will report only those arrests made for offenses that occurred within their own jurisdictions.

Juvenile – an individual 17 years of age or younger

Arrest Data by Offense

Arrest data counts the number of persons arrested, not the number of charges that person is arrested for; nor does it count the number of offenses cleared by the arrest. If a person is arrested for more than one offense the reporting agency counts only the arrest for the most serious charge. An adult is a person 18 years of age or older; a juvenile is a person aged 17 or younger. Law enforcement agencies will report only those arrests made for offenses that occurred within their own jurisdictions.

Officers Assaulted

When reviewing the information on Law Enforcement Officers Killed and Assaulted (LEOKA) the following needs to be considered:

- The data in the tables and charts reflect the number of victim officers, not the number of incidents or weapons used.
- The UCR Program considers any part of the body that can be used as weapons (such as hands, fists, or feet) to be personal weapons and designates them as such in its data.
- Not all agencies submit data on the number of officers assaulted in their jurisdiction.

Law Enforcement Employees per Agency

Because of law enforcement's varying service requirements and functions as well as the diverse demographic traits and characteristics of jurisdictions, use caution when drawing comparisons between agency staffing levels based upon police employment data from the Uniform Crime Reporting (UCR) Program. It must be remembered that the totals given for sworn officers for any particular agency reflect not only the patrol officers on the street but also officers assigned to various other duties such as those in administrative and investigative positions as well as those assigned to special teams.

Data Collection:

- Each year, law enforcement agencies in Utah report the total number of sworn law enforcement officers and civilians in their agency as of October 31 to the UCR Program.
- The UCR Program defines law enforcement officers as full-time, sworn personnel that possess full arrest powers, and carry a weapon. Their primary duties include responding to routine calls for police service, emergency situations, or crime scenes; performing routine patrol; rendering emergency services, enforcing criminal laws and traffic regulations; and investigating violations of criminal laws and traffic accidents. These employees' salaries are paid from law enforcement funds. In addition, correctional officers and police cadets are included in the officer counts only if they are sworn and possess full arrest powers.
- Civilian counts are inclusive of all full-time employees of the agency, i.e., dispatchers, clerks, and meter attendants. These employees' salaries are paid from law enforcement funds. Furthermore, correctional officers or jailers that have no police or arrest powers outside the jail are counted as civilians as long as their salaries are paid from the funds of the law enforcement agency.

Overview:

- In 2015, sworn officers accounted for 69.80% of all law enforcement personnel in Utah.
- The number of full-time law enforcement employees (civilian and sworn) per 1,000 inhabitants in Utah for 2015 was 2.42; the rate of sworn officers was 1.69 per 1,000. The UCR Program computes these rates by taking the number of employees, dividing by the population of agency's jurisdiction, and multiplying by 1,000. These numbers do not include the agencies that did not submit data in 2015.
- Female employees accounted for 55.75% of all full-time civilian law enforcement employees in 2015
- Males accounted for 90.67% of all full-time sworn law enforcement officers in 2015.
- As of October 31, 2015 there were 4,983 sworn law enforcement officers in Utah. Female officers made up 9.33% (465 officers) with male officers making up 90.67 % (4518) of the sworn law enforcement officers employed full-time in Utah.

INCIDENT BASED REPORTING

The concept of Incident Based Reporting, also referred to as IBR or NIBRS, was developed by the FBI in the 1980s to provide more comprehensive data for the management of crime in our society. In an incident based reporting system, computer technology is used to collect more detailed information about the crimes that occur. The availability of detailed information, stored in a law enforcement agency's Records Management System data base, makes for a more comprehensive analysis of criminal activity.

The Utah Incident Based Reporting System was implemented in 1991; 75 Utah agencies submitted IBR data for this report. The data accepted by the Utah repository is also forwarded to the NIBRS (National Incident Based Reporting System) repository where the FBI uses it to depict criminal activity nationwide.

The data from the IBR system is not directly comparable to the data from the summary based reports. Information about each incident and arrest is collected for 22 offense categories comprised of 46 Group A offenses. All offenses that occur in a criminal episode are reported, not just the most serious. Only arrest data is collected for 10 Group B crimes. (As opposed to the "Hierarchy Rule" outlined on page 10.)

Summary Based Reporting mostly gathers information on the eight "Index Crimes" listed on page 9. IBR gathers the "index crimes" as well as the following information:

Group A Offenses		
Crimes Against Persons	**Crimes Against Property**	**Crimes Against Society**
Murder	Robbery	Drug / Narcotic Violations
Negligent Manslaughter	Burglary/Breaking & Entering	Drug Equipment Violations
Forcible Rape	Larceny / Theft Offenses	Gambling Offenses
Forcible Sodomy	Motor Vehicle Theft	Pornography
Sexual Assault w/Object	Arson	Prostitution Offenses
Forcible Fondling	Destruction of Property	Weapon Law Violations
Aggravated Assault	Counterfeiting / Forgery	
Simple Assault	Fraud Offenses	
Intimidation	Embezzlement	
Kidnapping	Extortion / Blackmail	
Incest	Bribery	
Statutory Rape	Stolen Property Offenses	

Group B Arrests	
Offense	
Bad Checks	Nonviolent Family Offenses
Curfew / Loitering / Vagrancy	Liquor Law Violations
Disorderly Conduct	Peeping Tom
DUI	Trespass of Real Property
Drunkenness	All Other Offenses

Incident Based Reporting - Acknowledgements

Converting to IBR takes a lot of planning, work, and patience. It also requires enough foresight to see the value of accurate, detailed crime data in understanding and managing this serious problem. BCI appreciates the following agencies which have made the commitment to participate in the NIBRS program:

Crimes Against Persons

In this table certain categories of crimes against people are grouped together. The following indicates what offenses are counted for that category (see glossary for definitions of the offenses):

- Assault Offenses: Counts the victims of aggravated assault and simple assault.
- Sex Offenses (Forcible): Counts the victims of forcible rape, forcible sodomy, sexual assault with an object and forcible fondling.
- Sex Offenses (Non Forcible): Counts the victims of incest and statutory rape.
- Criminal incidents reported by the Utah Transit Authority PD, Utah State Parks, Utah Wildlife Resources and Utah Highway Patrol may have occurred anywhere in the state where the agencies have jurisdiction.

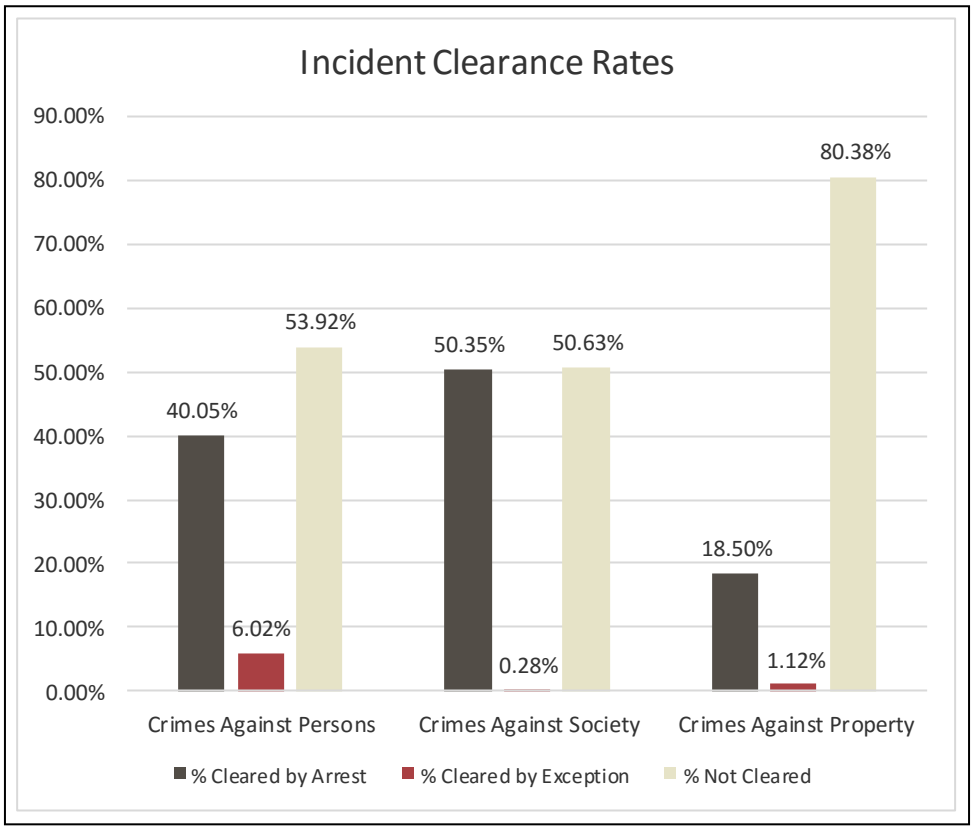
Clearance Rates



An offense cleared in 2015 may have occurred in a previous year.

Clearance by Arrest: The FBI's Uniform Crime Reporting Program states that "an offense is cleared by arrest or solved for crime reporting purposes when at least one person is: 1) arrested, 2) charged with the commission of the offense; and then turned over to the court for prosecution (whether following arrest, court summons, or police notice). Although no physical arrest is made, a clearance when the offender is a person under 18 years of age and is cited to appear in juvenile court or before other juvenile authorities."

Clearance by Exception: The FBI's Uniform Crime Reporting Program states that "In certain situations, law enforcement is not able to follow the three outlined steps under 'clearance by arrest' to clear offenses known to them." However, "if the following questions can be answered 'yes,' the offense is considered to be 'Cleared by Exception.'"

1. Has the investigation definitely established the identity of the offender?
2. Is there enough information to support an arrest, charge, and turning over to the court for prosecution?
3. Is the exact location of the offender known so that the subject could be taken into custody now?
4. Is there some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender?

GLOSSARY

The definitions used are found in the *Summary Reporting System User Manual* and the *NIBRS User Manual*.

ADULT: An individual 18 years of age or older.

AGGRAVATED ASSAULT: The FBI's Uniform Crime Reporting Program defines Aggravated Assault as: "An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness." See also *Simple Assault*.

ALL OTHER OFFENSES: Agencies that submit Summary Based data record all arrests that cannot be categorized under any other Part II Category in "All Other Offenses." Such arrests can include, but are not limited to, the crimes of: Anarchism, Bigamy and Polygamy, Blackmail, Bribery, Contempt of Court, Contributing to Juvenile Delinquency, Kidnapping, and Marriage within Prohibited Degrees, Perjury, Possession of Burglary Tools, Possession of Narcotic Paraphernalia, Riot, and Trespass.

AMERICAN INDIAN OR ALASKAN NATIVE - RACE: A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition. The other three categories of race are White, Black, and Asian or Pacific Islander.

ARSON: The FBI's Uniform Crime Reporting Program defines Arson as: "Unlawfully and intentionally damaging, or attempting to damage, any real or personal property by fire or incendiary device."

ASIAN OR PACIFIC ISLANDER - RACE: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. The other three categories of race are White, Black, and American Indian or Alaskan Native.

BAD CHECKS: Knowingly and intentionally writing and/or negotiating checks drawn against insufficient or nonexistent funds. Includes fraudulent checks and insufficient funds checks but not counterfeited checks or forged checks.

BLACK - RACE: A person having origins in any of the black racial groups of Africa. The other three categories of race are White, American Indian or Alaskan Native, and Asian or Pacific Islander.

BLACKMAIL: see *Extortion/Blackmail*

BRIBERY: The offering, giving, receiving, or soliciting of anything of value (i.e., a bribe, gratuity, or kickback) to sway the judgment or action of a person in a position of trust or influence.

BURGLARY: The FBI's Uniform Crime Reporting Program defines Burglary as: "The unlawful entry into a building or other structure with the intent to commit a felony or a theft."

CLEARANCE - incidents may be cleared by arrest or by exceptional means.

Clearance by Arrest: The FBI's Uniform Crime Reporting Program states that "an offense is cleared by arrest or solved for crime reporting purposes when at least one person is: 1) arrested, 2) charged with the commission of the offense; and then turned over to the court for prosecution (whether following arrest, court summons, or police notice). Although no physical arrest is made, a clearance when the offender is a person under 18 years of age and is cited to appear in juvenile court or before other juvenile authorities."

Clearance by Exception: The FBI's Uniform Crime Reporting Program states that "In certain situations, law enforcement is not able to follow the three outlined steps under 'clearance by arrest' to clear offenses known to them." However, "if the following questions can be answered 'yes,' the offense is considered to be 'Cleared by Exception.'"

1. Has the investigation definitely established the identity of the offender?
2. Is there enough information to support an arrest, charge, and turning over to the court for prosecution?
3. Is the exact location of the offender known so that the subject could be taken into custody now?
4. Is there some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender?

Some examples of exceptional clearance situations (these examples are not all inclusive):

- Death of the offender (suicide, killed by law enforcement, murder-suicide situation, natural causes)
- Deathbed confession by offender
- Offender already in custody or serving sentence for another offense
- Extradition denied
- Victim refuses to cooperate in prosecution
- The handing over of a juvenile offender to his/her parents in instances involving minor offenses where no referral is made to juvenile court
